

CHANGE IN FILE STATUS
APPROVAL FORM

DATE July 14, 1988

CURRENT FILE NO. DOE/027/005

RECOMMENDED FILE NO. Incorporate into M/027/008 *Done 8/18/88*

COMPANY AND MINE NAME Mr. M.C. Godbe, SDL Project

REASON FOR CHANGE IN FILE STATUS

Mr. Godbe filed this two acre exemption for rehabilitation and construction of a road to access a proposed borrow area. The borrow area was to be used to construct the large Needle Point Dike across the Sevier Dry Lake. This project was approved in 1986, but has been put on hold while other portions of the SDL Project are being implemented.

It is Crystal Peak's intent to build the Needle Point Dike in several years. It is recommended that the road exemption correspondence be filed in the Sevier Dry Lake file (M/027/008) and the D.O.E. File number retired.
